

CEAT ASTRIS SEAT COVERS

Brand Extension & Marketing Campaign Project

1. Project Overview

This project focuses on extending the well-established automotive brand **CEAT Tyres** into a new product category—**car seat covers**—under the sub-brand *ASTRIS*. The goal was to create a cohesive brand extension that aligns with CEAT's core values of safety, durability, and innovation while addressing consumer needs for comfort, style, and protection inside vehicles.

2. About the Brand

CEAT Tyres is one of India's leading tyre manufacturers, known for producing high-quality tyres for multiple vehicle segments. Established in 1958 and part of the RPG Group, CEAT has built a strong global presence across 100+ countries. The brand stands for “**Making Mobility Safer and Smarter.**”

3. Objective of the Project

- To design a **brand extension strategy** for CEAT
- To introduce **seat covers as a complementary automotive product**
- To maintain **brand consistency while entering a new category**
- To create a **marketing campaign across ATL, BTL, and digital platform**

4. Brand Extension Strategy

The extension introduces **CEAT Seat Covers (ASTRIS)** under automotive interiors.

Reason for Extension:

- Utilize CEAT's expertise in rubber technology
- Expand into a related category (car interiors)
- Meet demand for durable and low-maintenance seat covers

Objective:

To deliver **weatherproof, durable, and comfortable seat protection** while extending CEAT's promise into the interior experience.

5. Product Concept & Features

The product is designed using **upholstery-grade rubber** combined with fabric for durability and comfort.

Key Features:

- Heat-proof, waterproof, dust-proof, UV-resistant
- Ergonomic design with reinforced stitching
- Breathable material with perforations
- Easy maintenance (washable, quick-dry)
- Eco-friendly material blend

(As shown in *Product Attributes – Page 5*)

6. Product Line Extensions

1. Sports Seat Covers

- Inspired by tyre tread patterns
- High-grip texture for stability
- Bold and sporty aesthetics

2. Luxury Comfort Seat Covers

- Quilted and premium textures
- Added cushioning for comfort
- Elegant and sophisticated look

3. Pet-Proof Seat Covers

- Scratch-resistant material
- Easy to clean surface
- Designed for pet owners

(Visual layouts and variations shown on pages 6–8)

7. Additional Product Integration

To enhance the overall experience, the project includes:

- Steering wheel covers
- Seat pillows
- CEAT Drive Kit (bundle offering tyres + accessories)

This creates a **complete in-car ecosystem** aligned with CEAT branding.

8. Brand Identity Design

Visual Identity

- Primary color: Royal Purple (#6B37AD)
- Secondary color: Silver (#C0C0C0)
- Typography: Astris & Lastica

Brand Messaging

- **Tagline:** *Sit Back in CEAT Comfort*
- **Slogan:** *From Tracks to Comfort – CEAT's Got You Covered*

(Shown in Extended Identity – Page 12)

9. Target Audience

- Urban & semi-urban drivers
- Car enthusiasts
- Luxury-focused consumers
- Pet owners
- Fleet and commercial vehicle users

10. Brand Positioning

The product is positioned as:

- **Durable and performance-driven**
- **Affordable premium quality**
- **Lifestyle-based customization (sports, luxury, pet-friendly)**
- **Backed by CEAT's trust and legacy**

(Refer to detailed positioning strategies on Page 14)

11. Value Proposition

Functional Value

Durable, protective, and comfortable seat covers designed for different driving needs.

Emotional Value

Enhances driving experience with comfort, pride, and peace of mind.

Self-Expressive Value

Allows users to reflect their personality—sporty, elegant, or caring.

12. Marketing Strategy

ATL (Above The Line)

- Newspaper advertisements
- Billboard campaigns in high-traffic areas

BTL (Below The Line)

- Discount coupons (20% off promotions)
- In-store product demonstrations

Digital Marketing

- Instagram campaigns showcasing lifestyle usage
- Product-focused visual storytelling

TTL (Through The Line)

- VR experience in stores for interactive product trials

(Explained across pages 18–20)

13. Creative Approach

The project combines:

- **Functional design thinking** (durability & usability)
- **Emotional storytelling** (comfort, lifestyle)
- **Visual branding consistency** (colors, typography, layout)

Design elements were inspired by:

- Tyre textures → for sports aesthetics
- Premium upholstery → for luxury segment
- Practical materials → for pet-friendly solutions

14. Outcome & Learning

This project demonstrates:

- Understanding of **brand extension strategy**
- Ability to design **product + marketing ecosystem**
- Skills in **branding, visual identity, and campaign thinking**

- Integration of **user-centric design with business goals**

15. Conclusion

The CEAT Astris Seat Covers project successfully bridges the gap between **automotive performance and interior comfort**, creating a holistic brand experience. It reinforces CEAT's position as not just a tyre manufacturer, but a **complete mobility solutions brand**.
